

# RE:VISION ARCHITECTURE

## SERVICES + RECOGNITION

Re:Vision is a deep green architecture and sustainability consulting practice dedicated to the design of high-performance buildings and sustainable communities. In our work, we seek to re-vision and restore the balance between natural and built environments. Since 2002, Re:Vision's portfolio has grown to include a range of unique commercial, institutional, and residential projects that include: Net-Zero Energy verified, Passive House certified, LEED Platinum, Living Building certified, and/or common sense green.

Most of Re:Vision's work is secured through recommendations or for repeat clients that value Re:Vision's fresh approach and credible guidance. In both our architecture and consulting work, we thrive on close collaboration and finding creative solutions to everyday problems.

## FIRM RECOGNITION

Named "**Best Green Architect**" by Philadelphia Magazine, Re:Vision has been recognized for our leadership in sustainable design by numerous organizations such as:

**Northeast Sustainable Energy Association (NESEA)** – \$10,000 cash prize for Verified Net-Zero Energy Design

**International Living Futures Institute** – Living Building Challenge Award

**Society of American Registered Architects** – Project-specific awards of Design Merit, including Awards of Excellence

**Greater Philadelphia Preservation Alliance** – Grand Jury Prize for Historic Preservation

**Philadelphia Chapter of the American Institute of Architects** – Young Architect Award

**Pennsylvania Environmental Council** – Leadership in Sustainable Design and Development

**Delaware Valley Green Building Council (DVGBC)** – Project-specific awards for leadership in sustainable design

**USGBC Proven Provider**

## WHAT WE DO

As an early adopter of sustainable design, Re:Vision has an extensive track record of successful projects that represent the following key services:

**Architectural Design** for green buildings—commercial, institutional, and residential

**Technical Sustainable Design Consulting** for other designers, contractors, and owners

**Green Certification Management** (LEED, Passive House, Living Building Challenge) for designers, contractors, and owners
